

# The Low Cost Microfilm Scanner for All of Your Microfilm Types

## ScanPro<sup>®</sup> 800

The scanner of choice for a tight budget

The world's leading universities, libraries and private companies have been choosing e-ImageData microfilm scanners for more than 20 years. No other equipment on the market can match the ScanPro for its proven track record of performance, reliability and value.

The ScanPro 800 is becoming the microfilm scanner of choice for libraries, businesses and researchers facing tight budgets. The ScanPro 800 has the same robust design as the ScanPro 2000 and is built for the rigors of public use but has a considerably lower price. If you are looking for a microfilm scanner and don't need the automatic and special features found on the ScanPro 2000, the ScanPro 800 is what you are looking for.

- Built for public use applications.
- Easy to use software.
- Works with positive and negative fiche, 16mm and 35mm roll film and aperture cards.
- Combination carriers for all of your microform applications.
- Optical/Digital zoom range 7x to 54x.
- Scan to print, scan to a flash drive or hard drive in less than a second.
- Tool tips and on-screen help for all controls.

ScanPro 800 -  
The complete microfilm answer for tight budgets.

# Choose the ScanPro® 800 for Ease of Use, Performance and Value

**“There is an app for everything you want to do with microfilm, I just love it.”**

-Lori Bessler  
Wisconsin Historical Society

**“The software looks and operates like cutting edge web environment programs. It has instant user appeal.”**

-Karen Oye  
Case Western Reserve University.

**“We have film that’s difficult to work with, the film edit options are easy to use and absolutely priceless!”**

-Claire Moran  
Genealogy researcher

## Easy to Use

The ScanPro 800 software is an intuitive Windows® computer application with familiar icons and text labels. All controls are conveniently arranged by folder tabs to insure simplicity and ease of access. And, an on-screen help menu is available for all controls to help any user at any time.

## Performance

Small and compact, the ScanPro 800 fits almost anywhere. One CLICK on-screen buttons complete look ups quickly and efficiently. The combination carriers for all film types are easy and fast to operate using on-screen controls (manual buttons are also available). Highest quality imaging with no pixelation.

## Value

The ScanPro 800 is built for durability in public use applications. The construction is heavy gauge steel throughout and all moving parts use steel bearings for long term reliability. One of our customers reports *“Well built, high quality, reliable product”*  
-Howard Bybee, BYU

The ScanPro products have a proven track record of performance and reliability backed by factory trained and certified dealers.
